

taining a roadway that abuts annexed property by a city or village. I understand at the present time that some roads are not maintained properly because the county is waiting for the city to maintain it and vice versa. So by passing LB 173 all questions of road maintenance will be eliminated. I ask that LB 173 be advanced to E & R for Initial.

PRESIDENT: Discussion? Record your vote. Record.

CLERK: 26 ayes, 1 nay.

PRESIDENT: The bill is advanced. 168.

CLERK: Read LB 168. There are committee amendments by Senator Barnett's Judiciary Committee.

PRESIDENT: Senator Barnett.

SENATOR BARNETT: Mr. Chairman, I would move for the adoption of the committee amendments. If the body wants to turn to this page on this amendment, you want to find out...don't want somebody to say we're trying to pull something over on you on this one. This has to do with the Nebraska statutes. The Court Administrator asked for a set so we put them in the bill, 168. We struck the state sheriff, as there is no state sheriff. The Attorney General's office asked for 30 free sets instead of 20. We did not give them that amount. Also, the committee chose to amend on page 4 for each member of the Legislature to receive two complete sets instead of three. That's the committee amendments and I move for the adoption of those committee amendments.

PRESIDENT: Senator Goodrich.

SENATOR GOODRICH: Senator Barnett, would you yield to a question please? Senator Barnett, I've got a situation where I keep a set at home so I don't have to lug it back and forth there. I keep a set at the apartment here so I can read bills at night and then I keep a set in my office. The three sets of statutes for a senator works out just about right if you keep a place here in Lincoln. I don't think we should be eliminating one of our sets of statutes. It just means that one of those three spots I'm not going to have reference material to answer questions with. I frankly would suggest and that's all the committee amendment does is eliminates the three down to two for state senators, so I'm going to oppose the committee amendment. Leave it just the way it is. The bill accomplishes the intent of giving the Supreme Court or the Court Administrator a set. All we do is just don't adopt the committee amendment and we can each one of us keep our three sets, and keep them up to date.

SENATOR BARNETT: I would like to say to you Senator Goodrich, there was...this was not a unanimous decision by the committee to change it to two but the majority did feel that it was proper to reduce it to two and maybe some of the committee members would like to speak to that. I'm sure that they were sincere when they said two but it was a split decision and that is the only committee amendment so if you do not adopt the committee amendment, it would stay at three instead of going to two.

SENATOR GOODRICH: Fine, thank you very much Senator Barnett. Mr. President, members of the body. I would oppose the committee amendment because what it does is takes one of your
